TEMPORARY  
RESTRAINING ORDER

Defendants.

**MOSMAN, J.,**

On September 7, 2019, Plaintiff Wave Neuroscience (“Wave”) filed a Motion for Temporary Restraining Order [15] which is supported by its Affidavit in Support of Motion [28]. A hearing on Wave’s motion was held on September 10, 2019, during which Wave and Defendants presented arguments. For the reasons stated at the hearing and because Wave’s supplemental declarations make a proper showing of irreparable harm, Wave’s motion is GRANTED.

1. All necessary login, passwords, secondary authentication, and encryption information necessary to access Wave’s servers and software ecosystem.

2. Access and instructions or assistance necessary to return Wave's servers and software ecosystem to full operation as Defendants maintained them prior to September 3, 2019.
3. All current source code for the servers and software ecosystem.

No bond is ordered.

IT IS FURTHER ORDERED that all parties have been deemed served with this order upon its filing by the Court.

DATED this 12 day of September, 2019.
